#### **Getting to Know Your School Board**

#### Richard Canfield

My name is Richard Canfield. I grew up in Wichita and attended Wichita Public Schools. I then attended Sacred Heart College (now Kansas Newman University) and upon graduating, substitute taught in Wichita for a year and a half. During that time, I met and married my wife Paula. We then moved to Mulvane where I was the first full time art teacher at Mulvane High School. After 31 years, I retired from teaching in Mulvane and ran for the school board, which is where I currently serve the district.

During the time I taught in Mulvane, my wife also earned her teaching degree and started teaching third grade. Paula currently teaches fourth grade in Mulvane, but plans on retiring in the near future. Paula and I have three children, all of whom attended Mulvane Public Schools. Our youngest son Brad , now teaches woodworking at Mulvane High School and our granddaughter currently attends Munson Primary School.

When I reflect on my years of teaching in Mulvane, I think of good friends, special students, and many enjoyable years. I truly feel that the Mulvane community and school system are the best! There are few jobs that can be as much fun, totally challenging, and so incredibly rewarding as teaching. Now that I am no longer teaching, I feel that my position on the Board of Education allows me to support teachers in many ways, while also serving the community that has so richly blessed me.

Currently I substitute teach, do maintenance work, volunteer and, of course, babysit the grandkids once in a while. Life provides us with so many opportunities to be involved, stay busy, and give back to the others around us. I am so glad to live in a community of like-minded people.

#### **Mulvane Parents as Teachers**

Mulvane Parents as Teachers (P.A.T.) is a home/ school partnership that begins when learning begins - at birth. P.A.T. is based on the philosophy that parents are their children's first and most influential teachers.

In their beginning years, children learn more and at a much faster pace than at any other time in their lives. Our program helps parents make the most of these crucial early-learning years, giving children the best possible start in life.

ALL families, regardless of socio-economic status, can benefit from participation in Parents as Teachers. We are a FREE, year-round program offering personalized home visits, group meetings, periodic screenings, and a resource network to all families in Mulvane USD 263. For more information, please contact Heather Leggett or Debbie White at Munson Primary School: 777-0151, ext. 1401.

# Munson Primary Contributes to Families in Oaklawn

Munson students and staff collected 13 huge tubs of supplies for the students and families in the Oaklawn area affected by the tornado in mid-April. As a school, they gathered the supplies and gift cards that were needed the most. In addition to the supplies purchased from the list provided by the coordinating agency, Munson also provided \$170 in gift cards.

The following are supplies purchased:
Bottled water
Sports drinks
Cheerios
Snacks
Toilet paper
Paper towels
Soap
Washcloths
Baby supply items
Hygiene items
Cleaning supplies

## **National Turn Off Your TV Week**

Munson students participated in National Turn Off Your TV Week the last week of April; choosing some alternative activities to stretch their brains: Like visiting the public library, completing a library scavenger hunt, reciting poetry, and other family activities.

## **MGS** Hoops for Heart

This year's Hoops for Heart Campaign by the Mulvane Grade School in cooperation with the generous Mulvane community raised \$6,826.53!

The American Heart Association uses this money to find new ways to save lives in their battle against heart disease. On March 6, 2012 boys and girls who won the most knock-out games in our actual event back in February, along with the student from each class that raised the most money for this event, gathered in front of the student body at 7:45 a.m. in the gym for a shoot-out. Winners of that event were as follows: third place boy and girl - receiving a free day pass to MRC - were Hunter from Mr. Townsend's class and Katelyn from Mrs. Elliott's class; second place winners - receiving two free day passes to the MRC - were Kiser from Mrs. Cline's class and Mercedes from Mr. Townsend's class; first place winners - receiving a one month premium pass to the DRC in Derby - were Drew and Brittany, both from Mrs. Headrick's class. Also recognized in this event was Zane from Mrs. Cottrell's class who raised over \$300.00 for this campaign.

A huge THANK-YOU goes out to all the students for their hard work and the community for their generosity in making our event a success. There is no way to put a value on the number of lives that you have enriched/saved with your efforts.

# The Life Cycle of Butterflies Project at MGS

Many of the classes at MGS participated in the Life Cycle of Butterflies. The students completed written booklets that went along with the Painted Lady Butterfly Kits.

First, the butterflies begin their journey as a pale green egg the size of a pin head. Second they emerge as a larva (caterpillar). (The kits arrived at our schools) in this life cycle stage. Each participating classroom received approximately 5 caterpillars in a self-contained jar with special food. After 7 to 11 days, the third stage begins (the caterpillar turns into a pupa or chrysalis).

Our students utilized personal monthly calendars to predict when the final (fourth) stage would occur (butterflies may emerge from their individual chrysalis within 7 to 11 days). Several food items were provided to the hatched butterflies (flowers, oranges, orange juice, cotton balls soaked in sugar water, etc). Additional booklet activities included word mazes, making time lines of each life cycle, labeling parts of the butterfly, answering written questions, and finally writing a paragraph about their favorite part of hatching butterflies.

The picture shows a portion of approximately 50 MGS students representing all three grades, releasing 5 of the hatched Painted Lady Butterflies in the Butterfly Garden at Mulvane Grade School. All students thought the butterfly release was a huge success. It was a great learning experience shared by students and staff.

#### SCHOOL BOND PASSED

#### THANK YOU

Dear USD 263 Patrons,

Tuesday evening May 8, 2012 we received great news that the school bond passed. We want to take this opportunity to thank all the patrons of USD 263 for participating in this important vote and supporting the facility and safety improvements for our students.

"On behalf of the USD 263 Board of Education, I would like to thank the bond committee and everyone else involved for their efforts, work, and dedication to get the bond issue passed", said Board of Education President, Timothy Snider.

The bond will improve student safety and building security at Munson Primary and the Mulvane Grade School. Renovations will also take place at Lyle Couch Stadium and the transportation facility.

You can follow the progress of each project on our website at: www.usd263.org

Thank you!

# Final Project for AP Statistics Students at MHS

From farming to photographs, AP Statistic students are in the midst of their final projects. Students are given the broad task of "Find something you're interested in answering, gather raw data, analyze the data to reach a conclusion and present your findings." Student presentation will take place during classes on May 16 and May 17. Anyone is welcome to attend the presentations. For more information on particular times, contact Jesse Myers, jmyers@usd263.org.

**Sewer Back-ups Happen!** Basements with floor drains are susceptible to this problem. You should install a back-flow preventor on your basement sewer service line. Be sure your homeowner's or renter's insurance policy covers sewer back-up damage. It may need to be a separate policy rider.

#### Utility Bill Savings Ideas:

- Don't over-water your lawn.
- Most grasses need only 1 inch of water per week and need only be watered once or twice a week.
- Zoysia, bermuda and buffalo grasses use much less water and fewer chemicals.
- Check toilets and faucets for leaks and have them repaired.
- Retrofits install retrofit kits to decrease water use from showers, toilet flushing and faucets.
- Make sure your home air conditioner unit is in proper working order for the summer.
- Install energy efficient light bulbs.
- Practice water and energy conservation whenever possible!

#### Mulvane Swimming Pool:

- Open May 28 thru August 12
- 1:00 7:00 p.m. daily
- Season passes now on sale at the Mulvane City Hall
- Swim lesson sign-up at the Mulvane Recreation Commission
- Information: Email Mulvanepool@yahoo.com
