

# PREVENTION

## OUR STEPS TO PREVENT BULLYING

All students participate in regular lessons that teach expectations for behavior, communication skills, self-advocacy, cooperation, and tolerance through our district curriculum.

Counselors at MPS and MGS teach class lessons throughout the school year on bullying topics. For example:

What is bullying?

How do I report bullying?

What can I do to help someone?

All buildings have a procedure to address concerns from students - if you are aware of a bullying concern, please report it to the building principal.
